

PRINCIPLES OF ECONOMICS

WEDNESDAY: 24 April 2024. Morning Paper.

This paper is made up of fifty (50) Multiple Choice Questions. Answer ALL questions by indicating the letter (A, B, C or D) that represents the correct answer. Each question is allocated two (2) marks. Do NOT write anything on this paper.

- 1. Which of the following statements defines opportunity cost? Lack of opportunity B. Cost of foregone best alternative C. Limited choice D. Cost of preferred choice (2 marks) 2. Choose the statement that does **NOT** represent a characteristic of isoquants. Isoquants are positively sloped A. B. They are non-intersecting C. The higher the isoquant the higher the output D. Do not touch any of the axis (2 marks) 3. Which one of the following statements is **NOT** a solution to inflation? A. Increase taxes B. Increase production C. Reduce imports D. (2 marks) Increase wages 4. Identify the factor that may cause a movement along a demand curve. A. Consumer's income В. Tastes and preferences C. Price of the good D. Seasonal change (2 marks) 5. Which of the following is an exception to the law of diminishing marginal utility? A. Substitute goods B. Complimentary goods C. Inferior goods D. Liquor goods (2 marks) 6. Which of the following is **NOT** a method for measuring a country's national income? Output approach A. В. Per capita approach C. Expenditure approach D. Income approach (2 marks)
- 7. Identify an advantage of adopting protectionism policy in a country.
 - A. Improved balance of payment
 - B. Wide variety of goods available in a country
 - C. High quality goods produced in a country
 - D. Access to modern technology (2 marks)

Time Allowed: 2 hours.

8.	Whic	h of the following is a motive for liquidity preference?	
	A.	Exchange motive	
	B.	Saving motive	
	C.	Speculative motive	
	D.	Expansionary motive	(2 marks)
0	3371.		(2 marks)
9.	A.	h of the following statements is a characteristic of a developing country? Favourable terms of trade	12
			^ '
	В.	Low per capita income	401
	C.	High literacy levels	
	D.	Diversification in production	(2 marks)
10.	The e	xception to the law of supply is applied in which of the following case?	
	A.	Backward bending supply curve of labour	
	В.	Production possibility curve	
	C.	Marginal product curve	
	D.	Expansion path	(2 marks)
11.	Choo	se the statement that explains the concept of price control.	
	A.	Where prices of goods are set through bargaining	
	В.	Where market equilibrium price is applied	
	C.		
	C. D.	Where sellers fix maximum and minimum price	(2 montrs)
	D.	Where the prices are fixed through government legislation	(2 marks)
12.	Whic	h of the following is NOT a monetary policy?	
	A.	Open market operation	
	B.	Selective Credit Control	
	C.	Taxation policy 1	
	D.	Cash ratio	(2 marks)
		Q_{i}^{O}	,
13.		se a benefit of economic planning in a country.	
	A.	There is misappropriation of resources	
	В.	Reduced foreign aid in a country	
	C.	There is duplication of economic resources	
	D.	Corrects the challenges of price mechanism	(2 marks)
		•	,
14.		fy a challenge faced by the agricultural sector in Kenya.	
	A.	Wide variety of goods	
	В.	Changing weather patterns	
	C.	Increased government subsidies	
	D.	Stable prices	(2 marks)
15	Whi	h of the following is NOT a function of commercial houles?	
15.		h of the following is NOT a function of commercial banks?	
	A.	Lender of last resort	
	В.	Accepts deposits	
	C.	Provides safety lockers	
	D.	Acts as agents of the stock exchange	(2 marks)
16.	Whic	h of the following expresses GNP correctly?	
10.	A.	GNP = NNP - Depreciation	
	B.	GNP = GDP + Net factor income from abroad	
	C.	GNP = NNI - Indirect tax	
	D.	GNP = GDP - Subsidies + Net factor income from abroad	(2 marks)
Use tl	ne infor	nation given below to answer question 17 and question 18.	
			11 10 000 FF1 C' ' ' ' ' ' ' ' '
		ucing 10 units of output at a total cost of Sh.20,000 with its fixed cost being Shits and the total cost increased to Sh.25,000.	Sh.10,000. The firm increased its
outpu			
17.		mine the firm's marginal cost of producing the 12 th unit of output.	
	A.	5,000	
	В.	15,000	
	C.	10,000	
	D.	2,500	(2 marks)
		•	` '

(2 marks)

18.	Deter	Determine the firm's average variable cost when it produces the 12 th unit of output.					
	A.	15,000					
	В.	7,500					
	C.	1,250	00				
	D.	5,000	(2 marks)				
19.	Whic	h of the following is a characteristic of a perfect competition market structure?	3				
	A.	Few sellers	\				
	В.	Many buyers					
	C.	Different prices					
	D.	Non-uniform goods	(2 marks)				
20.	Identi	ify the correct representation of the stages of the law of diminishing returns.					
	A.	Constant returns, no returns, increasing returns					
	B.	Diminishing returns, no returns, increasing returns					
	C.	No returns, constant returns, diminishing returns.					
	D.	Increasing returns, constant returns, diminishing returns	(2 marks)				
21.	Whic	h of the following statements BEST explains the concept of economic development?					
	A.	Economic development is an increase in a country's national income					
	В.	Economic development is an increase in a country's net income from abroad					
	C.	Economic development is an increase in a country's GNP plus institutional changes					
	D.	Economic development is an increase in a country's GNP as well as GDP	(2 marks)				
	Δ.	Economic development is an increase in a country is only as well as obj	(2 marks)				
22.	Class	ify the TWO broad sources of public debt.					
	A.	Internal and external					
	В.	Regional and international					
	C.	Floating and self-liquidating					
	D.	Short term and long term	(2 marks)				
23.	Choo	se the policy that explains a country's reliance on its locally produced goods.					
23.							
	A.	Export promotion					
	B.	Import substitution					
	C.	Protectionism policy	(2				
	D.	Import restriction	(2 marks)				
24.	Identi	ify an assumption of indifference curve analysis.					
	A.	Consumer's income increases					
	В.	Consumers are irrational					
	C.	Indifference curves are convex to the origin					
	D.	Commodity is homogeneous and divisible	(2 marks)				
25.	Whic	h of the following is NOT a function of money?					
	A.	Measure of living standards					
	B.	Measure of value					
	C.	Medium of exchange					
	D.	Standard of deferred payments	(2 marks)				
26.	The n	necessary condition for profit maximisation by a firm is attained where,					
	A.	TR > TC					
	В.	AC = AR					
	C.	VC < FC					
	D.	MR = MC	(2 marks)				
27.	The f	ollowing are the effects of fixing a price floor. Which one is NOT?					
- *	A.	It encourages investments					
	В.	It creates an excess demand					
	C.	It causes unemployment					
	D.	Producers are assured of stable incomes	(2 marks)				
	- •		(=				

28.	A.	Creation	of employmen	objective of a trade union?	
	B. C. D.	Improven	investments nent of infrast training of wo		(2 marks)
29.		n. Which one	e is NOT ?		cording to Rostow's stages of economic
	A.		ow external in		10/
	B.		omy is fully m	onetised

		late the marginal cost function of the firm.	00
	A.	$20-3Q+7Q^2$	9
	B.	$6Q+21Q^2$	
	C.	156+20Q-6Q+21Q ²	
	D.	20Q-6Q+21Q ²	(2 marks)
38.		n one of the following is a role of co-operatives?	
	A.		
	В.	Lender of last resort	
	C.	Creation of employment	
	D.	Development of affordable housing	(2 marks)
39.	The fo	ollowing factors determine the price of land as a factor of production. Which one does NOT?	
57.	A.	Government policy	
	В.	Availability of credit	
	C.	Climatic conditions	
	D.	Development of infrastructure	(2 marks)
	Σ.	Bevelopment of infrastructure	(2 marks)
40.	Which	one of the following is NOT a property of isoquants?	
	A.	They are concave to the origin •	
	B.	They are asymptotic	
	C.	They are negatively sloped	
	D.	They are dense	(2 marks)
41.		n one of the following statements is a cause of monopoly?	
	A.	Collusion of firms	
	B.	Competitive advertising	
	C.	Super-normal profits	
	D.	Credit facilities	(2 marks)
42.	The fe	Maying are the adjustments to the output method of massuring national income. Which one is	NOT?
42.	A.	ollowing are the adjustments to the output method of measuring national income. Which one is No Depreciation	101:
	B.	Indirect taxes	
	C.	Value added	
	D.	Net factor income from abroad	(2 marks)
	ъ.	Net factor meonic from abroad	(2 marks)
43.	Which	n one of the following factors determine the rate of interest in an economy?	
	A.	Availability of credit	
	B.	Government policy	
	C.	Rate of economic development	
	D.	Level of foreign investments	(2 marks)
44.		n one of the following is NOT a non-monetary policy that is used to control inflation?	
	A.	Price control	
	B.	Controlling government expenditure	
	C.	Output adjustment	<i>(</i> 2
	D.	Controlling interest rate	(2 marks)
45.	Which	n one of the following is an objective of minimum wage legislation?	
15.	A.	Controlling inflation	
	В.	Controlling brain drain	
	C.	Controlling corruption	
	D.	Controlling rural-urban migration	(2 marks)
			(2)
46.	Identif	fy a disadvantage of a country relying on foreign aid.	
	A.	Better trade relations	
	B.	Increased production	
	C.	Improved balance of payments	
	D.	Increased overdependence	(2 marks)

47.	Whic	ch one of the following is NOT a non-tariff barrier in international trade?	
	A.	Giving subsidies	
	В.	Trade agreements	
	C.	Customs duties	
	D.	Foreign exchange control	(2 marks)
48.	The	following factors limit the success of economic integration in developing countries.	Which one does NOT?
	A.	Unfair foreign competition	
	В.	Existence of restrictions	
	C.	Poor infrastructure	
	D.	Level of technological development	(2 marks)
49.	The	demand function for a firm is given as: P=50	
	Dete	rmine the marginal revenue function of the firm.	
	A.	MR=50	
	В.	MR=O.5Q	
	C.	$MR=50Q^2$	
	D.	MR=50Q	(2 marks)
50.	Uner	nployment which occurs when employees are not fully utilised is known as	·
	A.	Cyclical unemployment	
	В.	Seasonal unemployment	
	C.	Structural unemployment	
	D.	Disguised unemployment	(2 marks)
		reateria	

PRINCIPLES OF ECONOMICS

MONDAY: 4 December 2023. Morning Paper.

Time Allowed: 3 hours.

This paper has seven (7) questions. Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

OUESTION ONE

(a) List SIX factors that determine the efficiency of labour as a factor of production. (6 marks)

(b) Distinguish between "deductive" and "inductive" method of economic analysis. (4 marks)

(c) Explain **FIVE** objectives of demonetisation of a currency. (10 marks)

(Total: 20 marks)

OUESTION TWO

(a) State FIVE exceptions to the law of demand. (4 marks)

(b) Distinguish between "macroeconomic theory" and microeconomic theory". (4 marks)

(c) Identify SIX merits of a planned economic system. (6 marks)

(d) Explain SIX reasons for government involvement in business activities. (6 marks)

(Total: 20 marks)

OUESTION THREE

(a) Explain **FIVE** effects of appreciation of a currency in an economy. (10 marks)

(b) Explain the term "own price elasticity of demand". (2 marks)

(c) The following information relates to a consumer in a certain market:

Income (Sh.)	Price of X (Sh.)	Quantity demanded of X (Units)	Price of Y (Sh.)	Quantity demanded of Y (Sh.)
750	28	44	15	87
900	45	60	23	30

Required:

(i) Determine the income elasticity of demand. (4 marks)

(ii) Outline **FOUR** applications of the concept of elasticity of supply. (4 marks)

(Total: 20 marks)

OUESTION FOUR

(a) Outline FIVE demerits of barter system of exchange. (5 marks)

(b) Highlight **FIVE** disadvantages of a monetary economy. (5 marks)

(c) With the help of a diagram, explain changes in supply. (6 marks)

(d) Enumerate **FOUR** characteristics of income consumption curve. (4 marks)

(Total: 20 marks) AD31 Page 1 Out of 2

QUEST (a)	CION FIVE List FIVE factors that might lead to leftward shift in the optimal point of a firm.	(5 marks)
(b)	Analyse THREE limitations of the marginal productivity theory of interest rate determination.	(6 marks)
(c)	Outline FOUR disadvantages of mobility of labour in an economy.	(4 marks)
(d)	Summarise FIVE benefits of monopoly to an economy.	(5 marks) (Total: 20 marks)
QUEST (a)	TION SIX Explain the term "debt-to GDP ratio".	(2 marks)
(b)	Describe FIVE forms of foreign aid to developing countries.	(5 marks)
(c)	(i) Explain the term "galloping inflation".	(2 marks)
	(ii) Enumerate FIVE merits of creeping inflation.	(5 marks)
(d)	Discuss SIX causes of unemployment in developing countries.	(6 marks) (Total: 20 marks)
QUEST (a)	CION SEVEN Outline FOUR components of the balance of payment accounts.	(4 marks)
(b)	Highlight FIVE reasons why the liquidity-money (LM) curve is positively sloped.	(5 marks)
(c)	Explain FIVE methods that may be used to promote exports in developing countries.	(5 marks)
(d)	Using a diagram, describe the circular flow of income of a closed economy with government in	tervention. (6 marks) (Total: 20 marks)

PRINCIPLES OF ECONOMICS

MONDAY: 21 August 2023. Morning Paper.

Time Allowed: 3 hours.

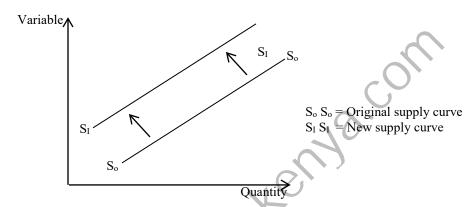

Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

QUESTION ONE

(a) Distinguish between "composite demand" and "competitive supply".

(4 marks)

(b) The following diagram relate to a firm in a certain industry:

With reference to the above diagram, highlight SIX factors that might have caused the supply curve to shift to the left.

(6 marks)

(c) Describe **FIVE** roles of commercial banks in an economy.

(10 marks)

(Total: 20 marks)

QUESTION TWO

- (a) Using demand and supply diagrams, explain the effects on the market equilibrium price and quantity transacted for commodity "A" given:
 - (i) An imposition of a per-unit tax on the suppliers of commodity "A".

(4 marks)

(ii) A reduction in the production cost of commodity "A".

- (4 marks)
- (iii) An increase in the price of commodity "B" which is a substitute for commodity "A".
- (4 marks)

(b) Explain **FOUR** factors that limit the multiplier effect in an economy.

(8 marks)

(Total: 20 marks)

QUESTION THREE

(a) The following information shows the total product of a commodity:

nits of labour	Total product
0	0
1	20
2	50
3	90
4	120
5	140
6	150
7	155

Required:

(i) Compute the marginal product.

(4 marks)

(ii) Draw a diagram to show the relationship between total product and marginal product.

(4 marks)

(b) Outline **SIX** effects of urban unemployment in the economies of developing countries.

(6 marks)

(c) Identify **SIX** factors that influence the level of investment in an economy.

(6 marks)

(Total: 20 marks)

QUESTION FOUR

(a) Highlight **FIVE** features of a firm operating under a monopolistic competitive market.

(5 marks)

(b) The commodity and money markets for a hypothetical economy are represented by the following:

Commodity market:

$$C = 540 + 0.3Y$$

 $I = 75 + 14r$

Money market:

$$M_{DT} = 0.45 Y$$

 $M_{DS} = 280 - 9r$
 $M_S = 750$

Required:

(i) Derive the IS function.

(5 marks)

(ii) Derive the LM function.

(5 marks)

(iii) The equilibrium rate of interest and equilibrium level of national income.

(5 marks)

(Total: 20 marks)

OUESTION FIVE

(a) Outline **FIVE** characteristics of public goods

(5 marks)

(b) With the help of a well labelled diagram, explain the concept of producer surplus.

(5 marks)

(c) Explain **FIVE** effects of depreciation of a currency in an economy.

(10 marks)

(Total: 20 marks)

QUESTION SIX

(a) The following data relates to a small hypothetical economy:

	Sh."millions"
Government expenditure	100,000
Private investments	40,000
Autonomous consumption	30,000
Exports	60,000
Imports	70,000

The marginal propensity to consume for this economy is 0.85.

Required:

(i) Calculate the equilibrium level of national income.

(6 marks)

(ii) Explain what would happen to the national income of the above economy if its currency appreciated.

(4 marks)

(b) Enumerate **SIX** positive effects of inflation in an economy.

(6 marks)

(c) Outline **FOUR** assumptions of the credit creation process.

(4 marks) (Total: 20 marks)

QUES (a)	Summarise SIX factors that limit the effectiveness of trade unions in developing countries.	(6 marks)
(b)	Explain FIVE roles of interest rate in an economy.	(5 marks)
(c)	Outline FIVE causes of the vicious circle of poverty in developing countries.	(5 marks)
(d)	State FOUR assumptions of the law of variable proportions.	(4 marks)

.....

Someakenya.

(Total: 20 marks)

PRINCIPLES OF ECONOMICS

MONDAY: 24 April 2023. Morning Paper.

Time Allowed: 3 hours.

Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

OUESTION ONE

(a) (i) Explain the term "free market system" as used in economics.

(8 marks)

(2 marks)

(ii) Explain **FOUR** advantages of a free market system in an economy.

(i) Distinguish between "price elasticity of demand" and "price elasticity of supply".

(4 marks) (6 marks)

(ii) Explain **THREE** determinants of price elasticity of demand.

(Total: 20 marks)

QUESTION TWO

(b)

(a) (i) Using a diagram, explain the concept of indifference curves.

(4 marks)

(ii) Outline **FOUR** properties of indifference curves.

(4 marks)

(b) Identify **FOUR** assumptions of the law of equi-marginal utility.

(4 marks)

(c) The following information relates to the demand and supply functions of two commodities:

$$Qd_1 = 92 + 2P_2 - 4P_1$$

$$Qs_1 = -6 + 32P_1$$

$$Od_2 = 82 - 3P_2 + P$$

$$Qs_2 = -5 + 15P_2$$

Where; $Qd_1 = Quantity demanded of commodity 1$

 $Qs_1 = Quantity supplied of commodity 1$

 $Qd_2 = Quantity demanded of commodity 2$

 $Qs_2 = Quantity$ supplied of commodity 2

 P_1 = Price of commodity 1

 P_2 = Price of commodity 2

Required:

Determine the equilibrium price and quantity of commodities 1 and 2.

(8 marks) (Total: 20 marks)

OUESTION THREE

(a) Outline **SIX** merits associated with specialisation of labour.

(6 marks)

(b) Explain **THREE** applications of the concept of consumer surplus in an economy.

(6 marks)

(c) (i) With reference to the theory of production, define the term "mobility of a factor".

(2 marks)

(ii) Explain **SIX** determinants of the supply of a factor of production in an economy.

(6 marks)

(Total: 20 marks)
AD31 Page 1
Out of 3

OUESTION FOUR

With reference to market structure, define the term "price ring". (2 marks) (a) (i)

State THREE factors that could lead to the success of a price ring in business. (3 marks) (ii)

Highlight FIVE differences between "monopolistic competition" and "monopoly market structures". (b) (5 marks)

Hazina, a medium size firm which specialises in the production of Nuts, has its determined cost structure per unit (c) of Nuts produced as follows:

	Sh.
Fixed costs per period	30,000
Variable costs per unit of Nut	20
Selling price per Nut	60

Required:

Compute the break-even number of Nuts that could facilitate economic profit. (2 marks) (i)

(ii) Determine the number of Nuts that would give a profit of Sh.100,000. (2 marks)

(iii) If the price of Nut falls to Sh.40 per Nut, determine the breakeven level of output. (2 marks)

(d) Explain FOIUR factors that are responsible for wage differential between different occupations in an economy.

(4 marks)

(Total: 20 marks)

OUESTION FIVE

The following data relates to a firm in the short-run. (a)

I OTOIL IUC	ctors that are responsible for wage	differential between different
VE lowing data 1	relates to a firm in the short-run.	OM
Quantity	Total Cost	
Units	Sh.	
0	100	
15	550	
25	830	
35	1,080	ı [*]
45	1,300	
55	1,600	
65	2,100	
75	2,800	
85	3,700	
95	4,800	
100	6,100	
	/	

Required:

Calculate the average fixed cost and average variable cost when the firm produces 65 units. (4 marks) (i)

(ii) Plot the marginal cost curve. (8 marks)

(b) Summarise FOUR reasons why it is necessary to measure the national income of a country. (8 marks)

(Total: 20 marks)

OUESTION SIX

With reference to Keynesian theory of money, explain THREE motives for people holding wealth in form of (a) (6 marks) money.

(b) (i) Explain the term "currency devaluation". (2 marks)

(ii) State THREE advantages of currency devaluation. (3 marks)

With the aid of a well labelled diagram, distinguish between "shift in supply" and "movement along the supply (c) curve". (4 marks)

Outline **FIVE** obstacles that hinder economic development in developing countries. (d)

(5 marks)

(Total: 20 marks)

QUESTION SEVEN (a) (i) Explain the concept of unemployment as used in economics. (2 marks) (ii) State SIX measures that could be adopted by developing countries to reduce unemployment. (6 marks) (b) Outline FIVE roles of the central bank in an economy. (5 marks) (c) Identify SEVEN factors that limit economic planning in developing countries. (7 marks)

.....

Someakenya.com

(Total: 20 marks)

PRINCIPLES OF ECONOMICS

Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

QUES	TION ONE	
(a)	Define the term "giffen goods" as used in economics.	(2 marks)

- Outline SIX assumptions of the production possibility frontier.
- (c) Explain THREE limitations of macroeconomics theory. (6 marks)
- (d) State SIX effects of price fluctuations in the agricultural sector in an economy. (6 marks) (Total: 20 marks)

QUESTION TWO

(b)

MONDAY: 5 December 2022. Morning Paper.

- State FOUR characteristics of a monopoly market structure. (4 marks) (a) (i)
 - (ii) Using a well labelled diagram, illustrate the longrun equilibrium point of a firm operating in a monopoly market structure. (6 marks)
- (b) Explain **FIVE** arguments in favour of enhancing the mobility of the factors of production. (10 marks) (Total: 20 marks)

OUESTION THREE

- (a) (i) Define the term "spot exchange rate". (2 marks)
 - (ii) Explain FOUR advantages of a managed floating exchange rate. (8 marks)
- (b) The following represents the demand and supply functions for a commodity in a certain market:

$$Q - 4P = -5$$

 $Q - 13 = -5P$

Required:

- (5 marks) (i) Determine the demand function and supply function.
- (ii) Determine the equilibrium price and equilibrium quantity. (5 marks) (Total: 20 marks)

OUESTION FOUR

- (4 marks) State **FOUR** characteristics of a mixed economy. (a)
- (b) Suggest SIX determinants of labour supply in an economy. (6 marks)
- (c) Discuss FIVE monetary policies used by central bank to control the amount of money in circulation in an economy. (10 marks)

(Total: 20 marks)

Time Allowed: 3 hours.

(6 marks)

OUESTION FIVE

(a) Using a diagram, explain the law of decreasing return to scale. (6 marks)

(b) State **EIGHT** negative effects of inflation in an economy.

(8 marks)

(c) With reference to national income, summarise **THREE** limitations of the multiplier.

(6 marks)

(Total: 20 marks)

QUESTION SIX

(a) The economic transaction figures of Pwato Republic in thousands of shillings are as follows:

Sector	Total output	Intermediate purchases
Agricultural	56,000	33,000
Manufacturing	97,000	64,000
Service	72,000	46,000

Required:

- (i) Compute the Gross National Product of Pwato Republic, using the value added approach of National Income. (2 marks)
- (ii) Calculate the Net Domestic Product at market prices and factor cost, if the indirect taxes and fixed assets depreciation is equal to 20,000 and 25,000 respectively. (4 marks)
- (b) Suggest **SIX** policy measures that might be implemented by developing countries in order to accelerate their economic growth and development. (6 marks)
- (c) State **FOUR** reasons why unemployment is a major policy issue in developing countries. (4 marks)
- (d) Explain **FOUR** challenges facing small scale industries in developing countries. (4 marks)

(Total: 20 marks)

QUESTION SEVEN

- (a) Using a diagram, show the indifference curves for complimentary and perfect substitute goods. (6 marks)
- (b) Distinguish between "own price elasticity of demand" and "cross elasticity of demand". (6 marks)
- (c) Explain **TWO** exceptions of the law of diminishing marginal utility. (4 marks)
- (d) Outline **FOUR** factors that limit the effective implementation of fiscal policy in developing countries. (4 marks)

 (Total: 20 marks)

••••••

PRINCIPLES OF ECONOMICS

MONDAY: 1 August 2022. Morning paper.

Time Allowed: 3 hours.

Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

QUESTION ONE

(a) Distinguish between "microeconomics" and "macroeconomics".

(4 marks)

(b) State five advantages of a planned economic system.

(5 marks)

(c) Identify six factors that determine the total market demand for a product.

(6 marks)

(d) Describe five types of price elasticity of demand.

(5 marks) (Total: 20 marks)

QUESTION TWO

(a) State the law of diminishing returns as applied in production functions.

(2 marks)

(b) Illustrate and explain the three stages associated with the law of variable proportions.

(9 marks)

(c) Using the Phillip's curve, explain the relationship between unemployment and inflation.

(5 marks)

(d) Outline four factors that could lead to an increase in the cost of production in a firm.

(4 marks)

(Total: 20 marks)

OUESTION THREE

(a) Excel products limited deals in the production of a product branded "Excellent".

The Average Revenue and Total Cost functions of "Excellent" are given by:

$$AR = 40 - 10x$$

$$TC = X^3 + 2X^2 + 16X + 10$$

Where:

AR = Average Revenue function (Sh. "millions")

TC = Total Cost function (Sh. "millions")

X = Number of units of "Excellent" produced and sold.

Required:

(i) The total profit function.

(4 marks)

(ii) The maximum profit.

(6 marks)

(b) Explain six reasons why existence of monopolies is beneficial to an economy.

(6 marks)

(c) State four disadvantages of currency devaluation.

(4 marks) (Total: 20 marks)

- (a) Distinguish between "Gross Domestic Product" (GDP) and "Gross National Product" (GNP). (4 marks)
- (b) Summarise five assumptions of the circular flow of income model. (5 marks)
- (c) Identify seven factors that influence the size of a country's national income. (7 marks)
- (d) State four problems associated with the income approach of Measuring National Income. (4 marks)

(Total: 20 marks)

QUESTION FIVE

- (a) Differentiate between "normal wages" and "real wages". (4 marks)
- (b) Explain three tools of monetary policy used to control money supply in an economy. (6 marks)
- (c) Describe four conditions necessary for consumer rationality. (4 marks)
- (d) Summarise six benefits of adopting a labour intensive technique of production in developing countries. (6 marks)

 (Total: 20 marks)

OUESTION SIX

- (a) Summarise six characteristics of money. (6 marks)
- (b) Explain four functions of commercial banks in an economy. (4 marks)
- (c) Outline four reasons why payment of interest to providers of loanable funds is justified. (4 marks)
- (d) Discuss three criticisms levelled against the dassical theory of interest rate determination. (6 marks)

(Total: 20 marks)

OUESTION SEVEN

- (a) Identify four economic implications of high rate of rural to urban migration in developing countries.

 (4 marks)
- (b) Summarise six arguments against reliance on external donor funding for a country. (6 marks)
- (c) Outline five factors that contribute to underutilisation of resources in developing countries. (5 marks)
- (d) The following information relates to the consumption of a commodity Q in a certain market.

Price of Q (Ksh.)	Quantity demanded of Q (Units)
5	800
10	750
15	700
20	650
25	600
30	550
35	500
40	450

Required:

- (i) Determine the arc price elasticity of demand as price changes from Sh.25 to Sh.30. (3 marks)
- (ii) Interpret your results in (d) (i) above. (2 marks)

 (Total: 20 marks)

.....

PRINCIPLES OF ECONOMICS

MONDAY: 4 April 2022. Morning paper.

Time Alle
Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

Time Allowed: 3 hours.

QUESTION ONE

(a) Explain the inductive method of economic analysis.

(2 marks)

(b) Identify five characteristics of public goods.

(5 marks)

(c) Outline four uses of the production possibility frontier.

(4 marks)

(d) Distinguish between "division of labour" and "specialisation of labour".

(4 marks)

(e) Summarise five disadvantages of a mixed economic system.

(5 marks) (Total: 20 marks)

QUESTION TWO

(a) The demand function of a firm is given as:

P = 115 - 63Q

Where: P is the price.

Q is the quantity demanded.

Required:

(i) Derive the average revenue function.

(2 marks)

(ii) Calculate the price elasticity of demand given that the price is Sh.3.

(3 marks)

(b) Explain five features of an oligopolistic market structure.

(5 marks) (5 marks)

(5 marks)

(Totale '

(d) Outline five demerits of a monetary economy.

State five characteristics of human wants.

(Total: 20 marks)

QUESTION THREE

(c)

(a) Explain four types of money market instruments used in an economy.

(8 marks)

(b) Outline four factors that contribute to the slow growth of capital markets in developing countries.

(4 marks)

(c) Discuss factors that influence business investment in a country.

(8 marks) (Total: 20 marks)

QUESTION FOUR

(a) Using a well labelled diagram, explain the shortrun profit maximising point for a firm operating in a perfect competition market. (6 marks)

(b) Define the following terms as used in the theory of cost:

(i) Opportunity cost.

(2 marks)

(ii) Explicit cost.

(2 marks)

(iii) Implicit cost.

(2 marks)

(c)	State four reasons why the demand curve is negatively sloped.	(4 marks)
(d)	Identify four reasons why the government might interfere with the price mechanism in an ec	conomy. (4 marks) (Total: 20 marks)
QUES (a)	STION FIVE Identify six measures that may be adopted to alleviate poverty in developing countries.	(6 marks)
(b)	Explain six disadvantages of adopting export-promotion strategy in developing countries.	(6 marks)
(c)	(i) Define the term "credit inflation".	(2 marks)
	(ii) Enumerate six causes of demand-pull inflation.	(6 marks)
QUES (a)	Describe three methods of measuring national income.	(6 marks)
(b)	The following data relates to the national income of Country X in billions of Shillings:	
	G = 1,000 I = 700 C = 62 + 0.8Y ^d T = 10 + 0.2Y X = 40 M = 70 + 0.1Y Where: G = Government expenditure I = Investment C = Consumption expenditure T = Taxes X = Exports M = Imports Y ^d = Disposable income (Y-T)	
	Required: (i) The equilibrium consumption level of national income.	(3 marks)
	(ii) The equilibrium national income.	(4 marks)
	(iii) The marginal propensity to save.	(3 marks)
(c)	With reference to the theory of production, list four factors that influence a production funct	ion. (4 marks) (Total: 20 marks)
QUES (a)	Explain five conditions that must hold for devaluation of a currency to be effective in	developing countries
(b)	Describe six applications of indifference curve analysis in economics.	(6 marks)
(c)	Explain five effects of unemployment in developing countries.	(5 marks)
(d)	Outline four assumptions of the marginal productivity theory of wage determination.	(4 marks)

PRINCIPLES OF ECONOMICS

	PRINCIPLES OF ECONOMICS	
WEDNESDAY	: 15 December 2021. Time Allowed: 3	3 hours.
Answer any FI	VE questions. ALL questions	carry equal marks.
QUESTION Of (a) Outline	NE five features of a planned market economy.	(5 marks)
(b) (i)	Explain "the law of variable proportions" as applied in the theory of production.	(2 marks)
(ii)	Highlight five assumptions of the law of variable proportions.	(5 marks)
(c) (i)	Define the term "elasticity of demand".	(2 marks)
(ii)	Enumerate six factors that determine the elasticity of demand of a commodity.	(6 marks) (Total: 20 marks)

MON	DAY: 17 May 2021. Time All	Time Allowed: 3 hours.		
Answ	er any FIVE questions. ALL que	estions carry equal marks.		
	STION ONE			
(a)	Outline six factors that might limit consumer sovereignty.	(6 marks)		
(b)	Summarise six demerits of a free market economic system.	(6 marks)		
(c)	The following information relates to the quantity consumed of commodity X at different	nt prices and income levels		
	of a consumer:			
	Quantity Price (Sh.) Income (Sh.)			
	1 120 units 160 60,000			
	11 100 units 180 50,000			
	Required:			
	(i) Determine the price and income elasticity of demand of commodity X.	(6 marks)		
	(ii) On the basis of your results in (c) (i) above, explain the nature of commodity X	(2 marks)		
	\$	(Total: 20 marks)		
OUES	STION TWO			
(a)	Analyse three exceptions to the law of supply.	(6 marks)		
(b)	Using relevant examples, explain two leakages from the circular flow of income.	(4 marks)		
(c)	Identify six factors that might lead to a rightward shift in the demand curve.	(6 marks)		
(d) .	State four conditions for consumer rationality as used in economics.	(4 marks)		
		(Total: 20 marks)		
QUES	STION THREE			
(a)	Argue six cases against the monopoly market structure.	(6 marks)		
(b)	Outline four features of the oligopolistic market structure.	(4 marks)		
(c)	The following data represents the demand function and total cost function of a monopol	ist:		
	P = 140 - 2q Where: P is the price			
	$TC = 10 + 5q^2$ q is the quantity			
	TC is the total cost Required:			
	Compute the quantity, price and profit maximising level of output of the monopolist.	(6 marks)		
(d)	Summarise two reasons why the marginal cost curve cuts the average cost curve at the le	owest point. (4 marks)		
		(Total: 20 marks)		

QUE	STION FOUR	
(a)	Explain six characteristics of money.	(6 marks)
(b)	Analyse six negative effects of inflation to an economy.	(6 marks)
(c)	In relation to the theory of production, illustrate the shutdown point for a firm.	(6 marks)
(d)	Explain the term "cross elasticity of demand" as used in economics. (Total:	(2 marks) : 20 marks)
QUE	STION FIVE	
(a)	Summarise five attributes of economic development in a country.	(5 marks)
(b)	Suggest six policy measures that the government might use to promote economic development in a cou	intry. (6 marks)
(c)	Analyse five factors that could be responsible for wage differentials between occupations.	(5 marks)
(d)	Differentiate between "marginal revenue product of labour" and "average revenue product of labour". (Total:	(4 marks) 20 marks)
ÓUE	STION SIX	
(a)	Explain five advantages of international trade to a country.	(5 marks)
(b)	Describe five methods of trade restrictions in international trade.	(5 marks)
(c)	State five measures that might be put in place to control the level of budget deficit in least developed co	ountries. (5 marks)
(d)	Outline five factors that could determine the level of national income in a country. (Total:	(5 marks) 20 marks)
QUE:	STION SEVEN	
(a)	State four factors that would limit the effectiveness of fiscal policy instruments in developing countries	. (4 marks)
(b)	Describe five effects of a decrease on money supply in an economy.	(5 marks)
(c)	Using Phillips curve, explain the statistical relationship between unemployment and inflation rate.	(6 marks)
(d)	Suggest five advantages of economies of scale to a firm. (Total:	(5 marks) 20 marks)

PRINCIPLES OF ECONOMICS MONDAY: 23 November 2020. Time Allowed: 3 hours. ALL questions carry equal marks. Answer any FIVE questions. **OUESTION ONE** Explain four benefits of studying economics. (4 marks) Outline five applications of the law of diminishing marginal utility in decision making. (5 marks) (b) (c) The demand for commodity X in a certain market has gone down. Explain six factors that might have caused the decline. (d) With reference to the theory of production, identity five disadvantages of adopting capital intensive technique of (5 marks) production. (Total: 20 marks) **QUESTION TWO** (a) Distinguish between "price elasticit of demand" and "price elasticity of supply". (4 marks) With reference to decision making, discuss three practical applications of the concept of price elasticity in an (b) economy. The total revenue and total cost function of a firm operating under a perfectly competitive market is given below: (c) $TR = 42Q - 0.5Q^2$ TC = 40Q - 120Q + 150TR is the total revenue. TC is the total cost. Q is the quantity. Required: Determine the profit maximising level of output (Q). (d) Outline six diseconomies of scale to a firm. (Total: 20 marks) Suggest four policy measures that a government might put in place to enhance occupational mobility of labour in an (a) (8 marks) economy. (8 marks) Analyse four factors that determine the demand for labour in an economy. (b) (4 marks) Outline four factors that could lead to decreasing returns to scale in the production process. (c) (Total: 20 marks) AD31 Page 1

(b)	Highl	ight seven factors that could contribute to low economic growth rate in most developing countries.	(7 marks)
(c)	Using	a well labelled diagram, explain the phenomenon of vicious cycle of poverty.	(4 marks)
(d)	Sumn	narise five policy measures that could be implemented to combat poverty in developing countries. (Tot	(5 marks) al: 20 marks)

PRINCIPLES OF ECONOMICS

MONDAY: 20 May 2019. Time Allowed: 3 hours. ALL questions carry equal marks. Answer any FIVE questions. **QUESTION ONE** (4 marks) Distinguish between "positive economics" and "normative economics". (a) Explain five roles of the government in resource allocation in acountry. (5 marks) (b) Outline five factors that determine price elasticity of supply in the market. (5 marks) (c) Identify six demerits of a planned economic system. (6 marks) (d) (Total: 20 marks) **QUESTION TWO** Summarise three exceptions to the law of diminishing marginal utility. (3 marks) (a) Distinguish between a "giffen good" and an "inferior good". (4 marks) (b) Explain five advantages to an economy of mobility of factors of production. (5 marks) (c) With the aid of diagrams, differentiate between a "change in demand" and a "change in quantity demanded". (d) (8 marks) (Total: 20 marks) **OUESTION THREE** The following information relates to a commodity in a certain market: P 50 - 0.50

Required:

(i) Giving reasons, determine the demand and supply functions.

P is the price of the commodity.

Q is the quantity demanded of the commodity.

(4 marks)

(ii) The equilibrium price and quantity of the commodity.

(4 marks)

(b) A firm operating under perfect competition has a total cost function represented by:

$$TC = 75 + 15Q$$

Where:

Where: TC is total cost. Q is quantity.

Required:

The unit price of the firm's output.

(2 marks)

(c)	Explain the following terms as used in economics:	
	(i) Composite supply.	(2 marks)
	(ii) Complementary demand.	(2 marks)
(d)	Highlight six roles of foreign aid in the economic development of developing countries.	(6 marks) (Total: 20 marks)
QUEST (a)	TION FOUR Identify five limitations of the ordinalist approach to the study of consumer behaviour.	(5 marks)
(b)	With reference to the theory of costs, highlight five factors that lead to external economies of scale.	(5 marks)
(c)	(i) Explain the term "inflation" as used in economics.	(2 marks)
	(ii) Summarise four causes of inflation.	(4 marks)
(d)	Explain the relationship between the multiplier and the accelerator.	(4 marks) (Total: 20 marks)
QUEST (a)	FION FIVE State five reasons for the deteriorating terms of trade for developing countries.	(5 marks)
(b)	Explain four forms of economic integration.	(4 marks)
(c)	Identify six effects of unemployment in an economy.	(6 marks)
(d)	Highlight five functions of the International Monetary Fund (IMF).	(5 marks) (Total: 20 marks)
QUEST (a)	FION SIX Suggest five reasons why an increase in national income may not necessarily imply improved star residents in a country.	ndards of living for (5 marks)
(b)	Using an illustration, explain the equilibrium level of national income of an open economy.	(5 marks)
(c)	Highlight four challenges associated with the income approach of measuring national income.	(4 marks)
(d)	Outline six functions of the central bank in a country.	(6 marks) (Total: 20 marks)
QUEST (a)	FION SEVEN Explain five factors that determine the value of money in an economy.	(5 marks)
(b)	Examine five limitations of the monetarist theory of money supply.	(5 marks)
(c)	Highlight six advantages of monopolies in an economy.	(6 marks)
(d)	Outline four factors that might lead to occurrence of a market disequilibrium for a product.	(4 marks) (Total: 20 marks)

PRINCIPLES OF ECONOMICS

	TRIVEIT ELS OF LEGINOMICS	
MONI	DAY: 26 November 2018.	Time Allowed: 3 hours.
Answe	r any FIVE questions.	ALL questions carry equal marks.
QUES (a)	TION ONE Argue six cases in favour of specialisation of trade.	(6 marks)
(b)	Highlight five characteristics of a free market system in an economy.	(5 marks)
(c)	Citing relevant examples, distinguish between "substitutes" and "compliments" as	used in economics. (4 marks)
(d)	Identify five factors that might lead to a rightward ship in the supply curve.	(5 marks) (Total: 20 marks)
QUES (a)	TION TWO The quantity supplied of a commodity is 60 units when the prevailing price is 45 rises to 50 Shillings, the quantity supplied of the commodity increases to 75 units.	Shillings. However, when the price
	Required: (i) The price elasticity of supply.	(3 marks)
	(ii) Interpret your results in (a)(i) above.	(2 marks)
(b)	Outline five demerits of fixing a maximum price of a commodity in an economy.	(5 marks)
(c)	Distinguish between the "real sector" and the "monetary sector" of an economy.	(4 marks)
(d)	Summarise six roles of commercial banks in an economy.	(6 marks) (Total: 20 marks)
QUES (a)	TION THREE Identify four factors that determine wages of workers in an economy.	(4 marks)
(b)	Differentiate between "isocost line" and "isoquant" as applied in the theory of pro	duction. (4 marks)
(c)	Discuss four types of mobility of labour as a factor of production.	(8 marks)
(d)	Explain four measures that could be adopted in an economy to control against a de	eflationary gap. (4 marks) (Total: 20 marks)
QUES (a)	Explain the concept of multiplier as used in economics.	(2 marks)
(b)	Analyse four roles of the multiplier in an economy.	(8 marks)
(c)	With the aid of a diagram, explain a firm's expansion path.	(6 marks)
(d)	Illustrate the concept of consumer surplus as applied in the theory of consumer be	haviour. (4 marks) (Total: 20 marks) AD31 Page 1 Out of 2

QUEST (a)	TON FIVE Explain the term "quasi rent" as applied in the theory of production.	(2 marks)	
(b)	Highlight eight factors that limit economic growth and development in developing countries.	(8 marks)	
(c)	Enumerate six causes of unemployment in an economy.	. (6 marks)	
(d)	With the aid of a well labelled diagram, explain the long run equilibrium of a firm operating under per competition. (4 ma) (Total: 20 ma)		
QUEST (a)	CION SIX Summarise four benefits of international trade to developing countries.	(4 marks)	
(b)	Suggest five challenges facing economic integration in developing countries.	(5 marks)	
(c)	Outline six economic effects of inflation to an economy.	(6 marks)	
(d)	Identify five measures that might be adopted in an economy to overcome the challenges of de	velopment planning. (5 marks)	
QUEST	TION SEVEN The consumption function of a hypothetical economy is given as follows: $C = 50 + 0.75Y^{d}$ Where: Y ^d is the disposable income. Required:	(Total: 20 marks)	
	Required: (i) The marginal propensity to save.	(2 marks)	

The level of consumption assuming income of 500 Shillings and a tax rate of 25%.

Explain five factors that might limit consumer sovereignty.

Outline five characteristics of a market operating under duopoly market structure.

Describe five methods employed by the government to influence allocation of resources in an economy.

PRINCIPLES OF ECONOMICS

MONDAY: 27 November 2017.

Time Allowed: 3 hours.

Answer any FIVE questions.

ALL questions carry equal marks.

QUESTION ONE

(a) Highlight four factors that promote the existence of monopolies in an economy.

(4 marks)

(b) Enumerate four contributions of non banking financial institutions in an economy.

(4 marks)

(c) Outline six problems associated with the following approaches of measuring national income:

(i) The value added approach.

(6 marks)

(ii) The expenditure approach.

(6 marks)

(Total: 20 marks)

QUESTION TWO

(a) Distinguish between "arc elasticity" and "point elasticity" of demand.

(4 marks)

(b) Summarise four objectives of trade unions.

(4 marks)

(c) Using indifference curve analysis, illustrate the case for the following types of goods:

(i) Perfect substitutes.

(6 marks)

(ii) Complementary goods.

(6 marks)

(Total: 20 marks)

QUESTION THREE

(a) Highlight five limitations of indifference curve analysis.

(5 marks)

(b) Argue five cases against specialisation of trade.

(10 marks)

(c) The data below relate to the demand and supply of a certain commodity:

Unit Price	Quantity demanded	Quantity supplied
(Sh.)	(Units)	(Units)
5	160,000	40,000
10	150,000	52,000
15	138,000	60,000
20	105,000	80,000
25	96,000	125,000
30	65,000	138,000
35	50,000	180,000

Required:

The equilibrium price and quantity of the commodity using the graphical method.

(5 marks)

(Total: 20 marks)

(10 marks) (Total: 20 marks) **QUESTION FIVE** With the aid of well labelled diagrams, explain: (a) (i) The short-run normal profit of a firm operating in a perfectly competitive market structure. (4 marks) (ii) The short-run supernormal profit of a firm operating in a perfectly competitive market structure. (4 marks) (b) Explain four effects of inflation on the key functions of money. (4 marks) (c) Discuss four differences between commercial banks and non-banking financial institutions. (8 marks) (Total: 20 marks) Highlight five limitations of a planned economy. **QUESTION SIX** (a) (5 marks) Outline eight circumstances under which the law of demand is violated. (b) (8 marks) With the aid of a diagram, explain the shurdown price of a firm in perfect competition. (c) (7 marks) (Total: 20 marks) **QUESTION SEVEN** Summarise six limitations of using national income statistics in comparing the living standards of two countries. (a) (6 marks) (b) Outline six objectives of the monetary policy. (6 marks) (c) A producer of music videos is able to sell the music videos to individual consumers and to television stations. The producer is able to separate the two types of consumers and sell them the same product at different prices. The following are the demand curves for these two markets: Television stations: $Q_1 = 420 - 2P_1$ $Q_2 = 1,020 - 4P_2$ Individual consumers: The total cost function is given as: C = 2,000 + 20Q $Q = Q_1 + Q_2$ Where: Q_1 = Quantity demanded by television stations. Q_2 = Quantity demanded by individual consumers. P_1 = Price charged to television stations.

Required:

 P_2 = Price charged to individual consumers.

The price charged and quantity demanded in each market. (8 marks)

(Total: 20 marks)

ATD LEVEL III

PRINCIPLES OF ECONOMICS

MONDAY: 21 November 2016.

Time Allowed: 3 hours.

Answer any FIVE questions.

ALL questions carry equal marks.

QUESTION ONE

(a) Distinguish between "positive economics" and "normative economics".

(4 marks)

(b) Summarise eight benefits of specialisation of trade.

(8 marks)

(c) The market for a certain commodity is represented by the following functions:

$$O + \frac{1}{3}P = 10$$

$$O + 15 = 4P$$

Where;

P is the price of the commodity. Q is the quantity supplied.

Required:

The equilibrium price and quantity of the commodity.

(8 marks)

(Total: 20 marks)

QUESTION TWO

(a) Outline six factors that lead to a leftward shift in the supply curve.

(6 marks)

(b) Describe four applications of the indifference curve analysis.

(4 marks)

(c) Distinguish between "inelastic demand" and "inelastic supply" for a commodity.

(4 marks)

(d) Explain six limitations of consumer sovereignty.

(6 marks) (Total: 20 marks)

QUESTION THREE

(a) Outline two properties of isoquant curves.

(2 marks)

(b) Explain four factors that determine demand for labour in an economy.

(4 marks)

(c) Justify the need for negotiation of higher wages by trade unions.

(4 marks)

(d) Discuss five factors that are responsible for wage differentials within the same occupation.

(10 marks) (Total: 20 marks)

QUESTION FOUR

(a) With reference to national income, explain the concept of multiplier as applied in an economy.

(4 marks)

(b) Summarise six problems associated with the product approach of measuring national income.

(6 marks)

(c) With the aid of a well labelled diagram, explain the circular flow of income for a closed economy with government intervention. (6 marks)

(d) Explain four arguments in favour of development planning in developing countries.

(4 marks)

(Total: 20 marks)

QUE:	STION FIVE A plastic manufacturing firm sells 100 units of its product at a price of Sh.10 each and has a fixed cost marginal cost of Sh.4.	of Sh.200 and
	Required: (i) The firm's profit. (ii) The average cost.	(3 marks) (2 marks)
(b)	Using a well labelled diagram, explain three reasons why the short-run average cost curve (SRAC) is aboaverage cost curve (LRAC).	ve the long-run (6 marks)

(a)	With	reference to the liquidity preference theory, explain three reasons why people demand money.	(6 marks)
(b)	High	alight four functions of money.	(4 marks)
(c)	Expl	ain five functions performed by the Central Bank of your country.	(10 marks) (Total: 20 marks)
QUE (a)	ESTION (i)	N THREE State the law of diminishing marginal utility.	(2 marks)
	(ii)	Highlight any three assumptions upon which this law is based.	(3 marks)
(b)	With	the aid of a diagram, explain how the consumer's equilibrium is derived under the indifference	curves approach. (5 marks)
(c)	Using	g the indifference curves analysis, distinguish between a "normal good" and an "inferior good".	(10 marks) (Total: 20 marks)
QUE	STION	N FOUR	
(a)	Using	g appropriate examples, distinguish between "fixed costs" and "variable costs".	(4 marks)
(b)	Brief	fly explain four sources of monopoly power in a market.	(8 marks)
(c)		g appropriate diagrams, discuss the equilibrium of a firm under perfect competition both in the	
	longr	uii.	(8 marks) (Total: 20 marks)
QUE	STION	N FIVE	
(a)	Expla	ain three main approaches used in the computation of National Income.	(6 marks)
(b)	The t	able below represents values of economic transactions for a hypothetical country (figures in bill	ions of shillings).
	D., C.	(Sh. billions)	
		ts of corporations 16 ries and wages 90	
		income 6	
		eciation 16	
	Indire	ect taxes 14	
	Subsi		
		actor income abroad -10

	D.		
	(i)	nired: Gross Domestic Product.	(2 marks)
	(ii)	Net Domestic Product at factor cost.	(2 marks)
	(iii)	Net Domestic Product at market prices.	(2 marks)
	(iv)	Gross National Product.	(2 marks)
	(v)	National Income.	(2 marks)
(c)	Using	g appropriate examples, distinguish between "economic growth" and "economic development".	(4 marks) (Total: 20 marks)
QUE (a)	CSTION (i)	N SIX State the law of diminishing returns.	(2 marks)
	(ii)	Using an appropriate diagram, discuss the three stages of production according to this law.	(8 marks)
(b)	Expla	ain five features of a free market economy as a way of allocating resources among alternative us	es. (10 marks) (Total: 20 marks)
QUE (a)		N SEVEN ly explain four stages of a trade cycle.	(8 marks)
(b)	The f	following are economic functions for company ABC Limited:	
		$Qn = 48 - 2P^2$	
		$Qn = 48 - 2P^2$ $Qb = 6p^2 - 8P$	
	Wh	nere P represents price and Q is the quantity.	
	-	nired:	(4)
	(i)	Giving reasons, identify the demand curve and the supply curve.	(4 marks)

Determine the price and the quantity at which the market is at equilibrium.

Highlight two economies of scale enjoyed by a firm as a result of large scale production.

(ii)
